Corrigendum -2 (Tender Document for selection of an agency for Printing Job)

1	CAPITAL OFFSET	As per Clause 6.1 – Financial Bid Evaluation, the Overall L1 bidder is determined on the basis of the Grand Total, considering the specified quantities and weightages. However, Clause 6.2 requires the Overall L1 bidder to match the lowest quoted rate for every individual item. We request reconsideration of this condition for the following practical reasons: Matching individual item-wise L1 rates changes the basis on which the Overall L1 was determined. Every bidder prepares its quotation based on its own cost, production, resources and margins. Matching other bidders' lowest rates can therefore change its original commercial offer. A bidder may inadvertently quote an unusually low rate due to a calculation or quotation error, and such error could financially affect the Overall L1 bidder.	Query 1	8	—	—	**6. Evaluation Methodology 6.1** Bids are ranked by their Grand Total Value Lowest total = L1, next = L2, and so on. **6.2** Even if a bidder wins overall (L1), they must match the lowest quoted rate (L1 rate) for every individual item in the tender. **6.3** The overall L1 bidder must confirm to the Tender Inviting Authority that they'll accept these item-wise L1 rates within a given deadline. If they refuse or don't respond, their bid is rejected and the offer moves to L2 (then L3, and so on), each time subject to matching item-wise L1 rates. **6.4** The Tender Inviting Authority will award work to up to 2 agencies (in rank order), as long as they agree to match item-wise L1 rates and follow all tender terms. The Tender Inviting Authority's decision is final. **6.5** The quantities and weightages shall be as provided in the Financial Bid format on the nProcure portal and are intended solely for bid evaluation.	No change.	**Unchanged**
